

Alycia Bellah Ph.D.

Fee Schedule Consultation & Testing

Insurance Accepted

I am a participating provider for several insurance companies. If you have private insurance and would like to use your behavioral health benefits, please provide a copy of your card to the receptionist. She can verify your benefits. If you are a member an insurance plan that I accept, you will be responsible for any copayments, deductibles, or coinsurance required by your insurance plan rather than for the full fee.

If I do not accept your insurance, you may have out-of-network coverage for services (in some cases, covering as much as 70% of the fee). If you use your out-of-network coverage, you will be responsible for paying for services and checking on your benefits. I can provide you with a receipt to file with your insurance carrier or flexible reimbursement plan if you wish.

Private pay patients who want to receive services without using insurance are also welcomed.

Payment Methods

I accept cash, checks, and credit cards for payment. Payment is due at the time of service unless other arrangements have been made.

Fees

We will start with an initial consultation, at which time we will agree on the scope of the testing before proceeding. My fee is \$300.00 for the intake session or one-time consultation.

Testing

A routine clinical assessment can have a total fee up to \$1,500.00.

However, many patients do not require a comprehensive assessment, and I often complete more circumscribed testing (in the range of \$600.00 for general evaluations with limited complexity and limited background data to review to \$950.00 for neuropsychological evaluations with limited complexity and limited background data to review). These types of assessments require fewer hours and have a lower total fee.

If testing beyond the basics are required by a 3rd party (school/work etc.), additional hours and fees can be determined at that time those services are requested.

I will be able to provide an exact estimate of charges after talking with you during the initial consultation.

*** If you are a cash pay patient, a partial payment of half of the estimated fee for the evaluation is required at the first testing session; with the balance due before the formal report is typed and released.

*** Please note that the total charge for testing includes both face-to-face hours AND hours spent scoring and interpreting the tests and writing a detailed report. There is usually at least 1 hour of interpretation/report-writing time for each 1 hour spent testing.

Feedback Sessions

Feedback sessions are scheduled after all testing is complete. The feedback session is an opportunity for us to review all of the assessment findings together, feedback sessions typically last 30 minutes to 1 hour. My fee is \$150.00 for a feedback session.

Therapy

My fee is \$300.00 for an intake session or one-time consultation.

After the first session, my fee is \$150.00 for each 55-60 minute therapy session.

The fee is \$100.00 for 15-30 minute therapy sessions

Assessments for Legal Issues

Forensic evaluations (those related to legal matters) typically involve more hours than other assessments, and also have a higher fee/hour (minimum \$300.00/hour), with all estimated charges paid via retainer prior to services being rendered. If I am required to appear in court, you will be responsible for paying for an 8 hour day at the same forensic rate (\$300.00/hour) + travel expenses.

I **do not** offer reduced fees for forensic services and these are not covered by insurance.

I have reviewed the fees and services associated with therapy and testing. I agree to payment in full for all services rendered:

Patient Signature: _____

Legal
Guardian/Parent: _____

Date: _____

***1. All office documents must be signed by a parent or legal guardian

If the patient is under the age of 18

***2. If the patient is adult with a legal guardian/caretaker. A copy of the document must be on file with our office to provide services.
